

EXERCISE 1

How is hopscotch played? Arrange the sentences in numerical order.

If a turn is missed, the player begins the next round from where they last left off.	
To win the game, the first player must throw their marker correctly into each numbered box and hop successfully around the entire course.	
The player tosses the marker into the first numbered box.	
Each player collects their own marker.	
If the marker falls in the wrong box, bounces out or touches a line, the next player takes their turn.	
When the marker lands in the right box, the player hops and jumps into each of the other boxes – avoiding the one with the marker.	
At the tenth box, the player turns around and hops back to the start, picking up their marker along the way.	
For side by side squares, the player must straddle, with the left foot landing in the left square and the right foot in the right square.	

EXERCISE 2

Circle the **proper nouns** and underline the **common nouns**.

- Hopscotch allowed every child to be a patriotic hero.
- Children chalk out their hopscotch court on a pavement or garden patio.
- The rules are similar to those used by Roman children.
- Before each game, each player collects their own marker.
- The Romans used small stones.

6. Today, children use coins, bottle tops or other markers.
7. The game starts with one player tossing the marker into the first numbered box.
8. The joy of hopscotch is the same as in the Roman times.

Learning Activity

What is your favourite game? Write instructions for this. Have someone videotape you playing this game. Show this video to the class and explain using the instructions you have written.
